MEMORANDUM FOR: Director, National Photographic Interpretation Center
SUBJECT: Proposal for Relocation of OER/OG/Sev
REFERENCE: Your Memorandum of 30 April 1963 (NPIC/D-39-63)

1. The Collation Project constitutes only a part of the activities of the OER/OG/Sev unit located at Headquarters. Because this mapping activity is integrated into the total research program of this unit, it is not possible to detach work on this project from the overall activity of the unit. Furthermore, it would be impractical to separate such a research function from essential services, support, and direction available at Headquarters.

2. Therefore, I cannot concur in your recommendation to relocate the OER/OG/Sev unit to Building 213.
